

## What Amelia Earhart Taught Us

Wednesday, September 9, 2009

*Sponsored by the Gateway Chapter of the Missouri Pilot's Association*

It has been seventy-two years since Amelia Earhart went missing. She not only left behind a mystery that has haunted aviation but many lessons for today's aviators. Retired aviation professor and accident investigator Fred Schieszer has spent a lifetime studying and researching Amelia Earhart. He will show us what she did right, what she did wrong, what we can learn from her experience, and you might come away with a better idea of what really happened to Amelia.

**The Columns Banquet Center**  
**711 Veterans Memorial Pkwy**
